Question:	What did you like most about this class?
Response Rate:	80.00% (4 of 5)
1	I especially appreciated that the professor challenged us.
2	The introduction to Cryptography bit of the class, was great. Cryptography is not Always a topic covered in Number Theory, so to have learned a bit of it was helpful, informative, and really fun.
3	He always spend some time to let student ask him some question during his class, i am not afraid to ask him question when I got confused. and he gave us time to think. he is really friendly and nice.
4	The weekly problem sets were helpful.

Faculty:	Brown, James
Question:	Please explain why you would or would not recommend this instructor to a friend.
Response Rate:	60.00% (3 of 5)
1	I would recommend Prof Brown to any friend who is interested in a challenging class where you learn a lot. Prof Brown is extremely helpful and is always available (responds promptly to emails and always willing to meet with students). On the other hand, Prof Brown really allows students to challenge themselves and explore ideas presented in class with interesting homeworks.
2	I, would, and already have recommended Professor Brown to friends. His explanations and notes are very clear and students leave his classroom with a better understanding of Number Theory. He is always available during his office hours and responds Very quickly to email. His grading is a bit tougher than the students are used to, but it pushes us to write clearer and cleaner proofs.
3	This professor is really helpful, he is always ready to help students. He is nice person and explain every questions that you asked. Even in the class, he also answered your question nicely and friendly, one of the best professor that I have.

Faculty:	Brown, James
Question:	What, if anything, could the instructor have done to improve this class?
Response Rate:	60.00% (3 of 5)
1	Can't think of anything.

2	Nope. Nothing. WE could've improved the class. He offered recitations and no one showed up.
3	He is perfect and he can help students any time. I love his class, i can really learn a lot from him.
